

FOSS

Promoting an Inclusive Workplace

FOSS is continuing its collaboration with “Glad Mad”, or Happy Food, for the provision of healthy, seasonal food and catering services at the Danish Headquarters. The social enterprise, which is part of the Glad Foundation, employs staff consisting of professional chefs and assistants with and without disabilities. Profits are reinvested into the organisation enabling it to provide training programs for employees in areas such as the culinary field. We are proud to be the first Danish company to support the program, which promotes an inclusive hiring structure and enhanced training for people who traditionally have been excluded from the workplace.
