

How to Turning Save Scan On/Off

1. Press MENU to access Quick Menu.

2. Go to "6 Save Scan". Use the arrow keys to move up/down and left/right arrow to change state from "On" to "Off" or vice versa.
3. Press MENU again, or leave it for 10 seconds, to return to the operator screen.

As a guide:

- Save Scan (On): when running standardisation samples, or as instructed by FOSS
- Save Scan (Off): routine sample analysis
